A PROACTIVE APPROACH

Airlink’s regional response plans will address critical needs, challenges, and relevant partners in six global regions. The plans are part of a proactive approach by Airlink in 2018 to coordinate each relevant actor ahead of time, enabling each group to act quickly and effectively when disaster strikes.

GET INVOLVED

Airlink continues to grow in its reach and network. Connect with the Airlink team and get involved as a partner, donor, or ambassador.

In 2017, Airlink was able to facilitate disaster response efforts following wildfires in Chile, flooding in Peru and Southeast Asia, hurricanes in the Americas and Caribbean, and refugee crises in Greece and Bangladesh.

GROWING IMPACT

“Airlink has had a direct impact on my team being able to help hundreds of people get health care they otherwise would not get. Without our partnership with Airlink, the cost of airfare would either come out of the funds designated to buy supplies for the medical clinic or it would be so cost prohibitive we’d be unable to come.”

- Teresa Gray, Mobile Medics International
